Cardano Creator Charles Hoskinson Blasts the 'Biggest Lie' in Crypto: The Network Effect

Cardano creator Charles Hoskinson says the "biggest lie" in the crypto space is that any one platform has achieved dominant levels of adoption. In a new interview with Messari's Ryan Selkis, Hoskinson says the claim that Ethereum has built a significant network effect is far from accurate. "It's the biggest lie ever told in [the] [...] The post Cardano Creator Charles Hoskinson Blasts the 'Biggest Lie' in Crypto: The Network Effect appeared first on The Daily Hodl.

Bitcoin Only Matters Because the Game Is Rigged

The reason Bitcoin is likely to be important to the future isn't about the technology, it's about the modern world where money is abused for the benefit of the few and to the detriment of the many.

“Miners don’t care,” says Ethereum dev as proposal to increase ETH scalability floats

A tweet by Bitfly, the parent firm of Ethereum mining pool Ethermine, stirred up debate over the weekend after the firm revealed miners are voting to increase GAS limit from 10,000,000 to 12,500,000 each block. The post “Miners don’t care,” says Ethereum dev as proposal to increase ETH scalability floats appeared first on CryptoSlate.
