Crypto Market Is Securing the Technical Level That Marked Bitcoin's 2019 High

Last week, Bitcoin and the rest of the crypto market saw a harsh rejection at critical resistance levels. Within minutes, almost all digital assets plunged by 5%, shedding the gains they had seen the day earlier. It's a drop that has made some analysts skeptical that the rally will continue. As reported by Bitcoinist, an analyst noted that the Bollinger Bands indicator is showing that BTC looks almost exactly like it did at 2017's highs, [...]
